

Agenda
September 21, 2015 – 10:00am

1. Review and discuss proposal for adjudication of Turtle Mountain claims. Modify proposal if needed, and finalize if possible. The Court's objective is to issue a Turtle Mountain preliminary decree in the first quarter of next year.
2. Formulate plan for deliverables related to UM Study. I'm mindful that many serving on the committee are unpaid volunteers, and that all of you have pressing commitments elsewhere. The product from our meetings regarding the UM Study can therefore be as informal as a series of comments communicated verbally by you to the Court, or it can be a more structured written product produced by committee members individually, or as a group. I don't expect consensus on all issues, and I plan to make whatever you say available to the public via the Court's website and to submit your comments and suggestions to WPIC.

My hope is that we can produce something substantive within about three meetings.

Thanks in advance for all your help.

Russ McElyea
